## EXPERIENCE

### Hobu, Inc

Iowa City, IA

#### Software Development Intern

May 2018 - August 2018

- Utilized Amazon Web Services technologies to create a cloud application that allows user-friendly utilization of existing company maintained open-source software data processing software
- Contributed to GitHub documentation of open-source point-cloud data processing workflow
- Reviewed code changes and incorporated peer feedback as part of company code-review process

### Rockwell Collins

Cedar Rapids, IA

#### Technical Intern Senior, Advanced Technology Center

June 2017- August 2017

- Calculated anti-jamming performance of various GPS receiver designs as consultancy project
  - Extended existing simulation code to match client's specification
  - Assisted management in creation of report for outside firm
- Analyzed performance and accuracy of existing products using MatLab, eventually leading to discovery of a bug in a fielded system
- Extended existing Linux C codebase to allow GPS device to support new standards

#### Technical Intern Junior, Supply Chain Quality Assurance

June 2015-November 2016

- Developed a tool that helps collect and organize supplier performance data using Visual Basic for Applications and native Excel functions
  - Automated the generation of executive reports and presentations from this data
  - Communicated with future users of this tool to obtain feedback for continuous improvement of ongoing development
- Automated extraction of data from SAP database to create charts and graphs for presentations

## EDUCATION

### Iowa State University

- Bachelors of Science in Computer Engineering, 2015- Present (Graduating December, 2018)
  - Cumulative GPA 3.31, Junior Year GPA 3.78
  - Supplemental Focus Area in Security
- Awards and Scholarships:
  - College of Engineering Dean's List Fall 2017, Spring 2018
  - Award for Competitive Excellence
  - Cardinal Leadership Scholar Award
  - College of Engineering Scholarship (Boeing Company Award)
